

IT BEGINS WITH CONNECTING YOUR ENTIRE FLEET TO A SINGLE PORTAL

How many different truck makes do you have in your fleet? Two? Five? Now, how many remote diagnostics systems do you have? Two? Five? How's that efficient? Answer, it's not. In fact having a different system for every make in your fleet is pretty antiquated. That's why we decided to shake up diagnostics and create something that'll make this part of your job more efficient. It's called OnCommand™ Connection, the first and only all-makes diagnostics system.

ONCOMMAND CONNECTION

IS DESIGNED TO:

DIAGNOSE
your fleet while it's on the road

PLOT
vehicle locations and find nearby dealers

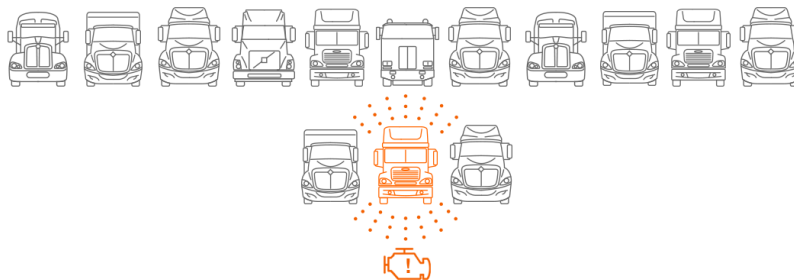

HELPS YOU:

Get
ACTION PLANS
for more than 18,000 engine and VEHICLE faults

PRIORITIZE
needed repairs while avoiding unnecessary service visits

WORKS WITH YOUR FLEET - YOUR ENTIRE FLEET

No matter which truck, bus or engine makes comprise your fleet, OnCommand™ Connection will monitor them all

ALL THE TOOLS TO GET THE JOB DONE

- 
LIVE ACCESS
- 
HEALTH REPORTS
- 
ACTION PLAN
- 
MAPPING
- 
ALERTS

Still not sure OnCommand Connection is right for you?

HERE'S HOW ONCOMMAND CONNECTION SOLVES YOUR 3 MAIN CONCERNS

COST:

Fleet operators don't want to pay the upfront cost for implementing the technology. **OnCommand Connection is free!** Only pay for the telematics/data airtime. Return on investment is quickly realized.

USEFULNESS:

On Command Connection has the ability to product detailed reports to help plan out when your units will need maintenance and what will be needed to be looked at. Used to improve driver routes, fuel efficiency, and many more factors.

TIME:

It's actually quick and easy to implement.

BENEFITS OF ONCOMMAND CONNECTION

- Improved Customer Service
- Improved Productivity
- Improved Maintenance
- Decrease in Downtime
- Reduction in Labor Costs
- Decrease in Fuel Consumption
