

SAFETY SEMINAR

Idealease Inc., in conjunction with The National Private Truck Council (NPTC), is holding a series of Safety seminars across America. The seminar will provide information needed by fleet managers to achieve a higher level of compliance with state and federal regulations.

This one-day seminar helps managers understand the regulations, the carrier analysis process, and FMCSA intervention/compliance reviews. It also teaches important risk control techniques to maintain insurability, control losses, and improve the bottom line.

The seminar provides a review of new and proposed state and federal regulations, an overview of enforcement, and guidelines to help managers design their own safety program. In addition, the seminar covers electronic logging devices, drug/alcohol testing, driver qualifications, vehicle inspections, and more. The seminar series will be held on the following dates and locations throughout the remainder of 2016:

- June 23: San Leandro, CA
- Sept 20: Lafayette, IN
- Sept 22: Santa Barbara, CA
- Oct 4: Erie, PA
- Oct 5: Butler, PA
- Oct. 6: Cleveland, OH
- Oct. 12: Chicago, IL

For more information on this one-day seminar, or to register, visit <http://www.idealease.com/safety-seminars>
